

## Day-6

- Find daily use applications
- Like notion
- See if it is open source
- If not, find notion alternatives

- See suitable best fit tech stack for you
- We should have good development skills
- Update yourself with latest tech stack

- Contributing.md
- Readme file

- We found issue in site
- Create issue
- Try to solve it and make PR

- See tech stack > are you familiar
- Filter by applying labels = good first issues
